

## Health Report on Puppy

Microchip # \_\_\_\_\_ DOB \_\_/\_\_/\_\_ WT \_\_\_\_\_

Color Band \_\_\_\_\_ Sex \_\_\_\_\_ Breed \_\_\_\_\_

Parents: \_\_\_\_\_ and \_\_\_\_\_

Your pups was vet check by our veterinarian and found to be in good health. Any health issue will be reported to you and will be in pup's health report. I require you to have pup vet checked by your veterinarian within 5 days of picking or delivery of puppy. Any health issue needs to be reported to me within 24 hours by phone, email or text.

### Internal Parasite Control

Pups are on a deworming protocol that starts before they are even born. Moms are dewormed at time of breeding and the last week of pregnancy. Warranty is void if pup is not on a maintenance parasite control program. (Internal gastric, heart and external parasite )

Age 2 week Nemex PO date given \_\_\_\_\_

Age 4 weeks safeguard PO x 3 days date given \_\_\_\_\_

Age 6 weeks nemex PO date given \_\_\_\_\_

Age 8 weeks safeguard PO x 5 days date given \_\_\_\_\_

Baycox is given at age 7weeks of age and the day he/she leaves date \_\_\_\_\_

Safeguard de-wormer is used to prevent /treat internal parasites and giardia.

Baycox is used to prevent/treat for coccidiosis.

### External Parasites

We treat our breeding stock with topical monthly treatment. We also spray the kennel grounds with prethrin every 3 months. Pups are bathed with a flea and tick shampoo before going to your home. We

try to prevent external parasites and encourage you to get your pup on a flea and tick month treatment program plan.

Vaccines are important to prevent canine disease like canine PARVO , hepatitis, influenza kennel cough etc. Warranty is void if pups are not current on vaccines.

Pups will be up to date on baseline puppy vaccines.

Canine H3N8     age 3 months                     date given \_\_\_\_\_

Health Warranty for Plumcreek Acres

### **Genetic Illness**

If your puppy develops a LIFE threatening genetic illness .You must contact me ASAP with veterinarians reports. Your pup is covered for 2 yrs. on genetic illness. The vet report must have the microchip number of the puppy , vet bill with address and phone number and a progress report from the vet outlining the condition the puppy suffers from. I will then have my team of vets look at the report. I will have 15 days to get back to you with my veterinarian's findings . If my vet agrees the condition is genetic . Your options are . 1. You can return pup for a replacement pup of equal value.. 2.You can keep pup and I will refund ½ the value of the pup for treatment and care. If you choose to return pup I will have up to 1yr to replace pup with a pup of equal value. If the condition is fatal a necropsy is needed. I will refund the cost of pup.

### **Hips**

If your pup doesn't receive a borderline or better score from the OFA. You must send OFA reports to me with microchip number on it ASAP. If pup was bought with full breeding rights for show/breeding , pup will be returned . I will replace the pup within 1yr with a puppy of equal value . You can keep pup, but pup must be spayed or neutered and proof sent to Melissa. You will then be reimbursed 1\2 the purchase price of puppy. If this pup was bought with limited registration and is a family pet I will reimburse ½ the purchase price of the pup for vet bills if treatment is needed and received for this condition.

Your puppy is being sent to your home with a bottle of Bloom Supplement. Puppy must stay on this product for the duration of this warranty for the hip warranty . This supplement is purchased through Melissa at 724-397-2798 or text me at 724-541-7548 or our website plumcreekpups.com. This product is great to help puppies through periods of rapid growth and high stress times. This product helps puppy to get the most benefit from their puppy food. Your pup must stay on a quality Puppy Food for the first year of life. Maintaining a healthy weight is very important to your puppy. Overweight will cause stress on growing joints and can cause hip and elbow dysplasia. You must keep your dog at the idea weight for their age and height. Injury from jumping off furniture or over exercising a young pup is another culprit for joint injury.

If your pup is being sold as a family pet he/she will not be spayed or neutered until age of 12 months. Pups need their estrogen and testosterone hormones to promote proper maturity of hips , elbows and etc.

### **How to Submit a Warranty Claim**

Email Melissa at plumcreekacres@gmail.com with these items:

- Pups registration paper.
- Reports from veterinarians with condition/ microchip number.
- OFA report with microchip number.
- Proof of quality dog food.
- Proof of maintenance vet care.
- Proof of up to date vaccines.
- Proof of parasite control program.
- Proof of health weight and injury free.
- If a female pup she was not breed before age 2.
- Proof you ordered the Bloom supplement from Melissa.
- If it is a case the pup has died, I will need a necropsy report.
- Copy of vet bills.

After I have received all reports I will have my team of veterinarians look at the findings and I will get back to you within 15 days. I will also email you to let you know I received the items. If you do not hear back from me in 24 hours please text or call me at 724-541-7548.

### **Things that Cause a Void in Warranty:**

- Not having pup checked by vet within the 5 day after pickup or delivery of puppy.
- Female that is bred before OFA preliminary are done first. If female is bred during the 2 yr. warranty period.
- Over Weight.
- Injury, over exercising and jumping off couches bed or in pools.

- Not current on vaccines.
- No routine vet checks.
- No parasite control program (fleas ticks gastric worms and heartworm).
- Spay or neutering pup before age 1.
- Not feeding puppy food.
- Puppy not on Bloom supplements (hips warranty only).
- Puppy is not in the care of the person whom bought the puppy.

*This warranty is for the person who purchased the puppy from Plumcreek Acres . This warranty is not transferable.*

Each pup is vet checked and is found to be free of illness. Each pup leaves here with a vet check, individual health record, microchip registration form, puppy registration form if qualifies and warranty of good health.

If puppy is purchased with Limited Registration it is not to be used in ANY breeding program type. When you sign this contract you agree to this. If at any time this puppy is used in a breeding program you will be fined \$5000.00.

Purchaser \_\_\_\_\_

When purchasing this puppy you agree he/she will get the care it needs. Puppies have financial needs and desire a loving home. If at any time you are unable to keep dog. You agree he/she will not be placed in a shelter. All pups no matter age are welcome back to plumcreek Acres. We do not offer refunds for returned puppies. I will however evaluate the returned dog and try to find him/her a new home. After pup is placed into their new home I will subtract the cost I have in rehoming pup and offer you the remaining balance.
